Dr. Snyder's Office Broken Open and Two Fur Overcoats Stolen.

BOLD ROBBERY IN A STORE

A Fellow Runs Away With Nine Pairs of Trousers - Joe Walsh Sets His Long Legs in Motion and Captures Him.

Some time last evening between the hours of 5 and 6 o'clock the room in the rear of Dr. Snyder's office was broken open. Two fur overcoats and a Prince Albert coat were taken. One of the fur coats was a skin and the other was what is known as camel's hair. As soon as the loss was discovered the police were notified, and a search of the second-hand stores found the Prince Albert coat at S. D. Root's store on Front street. A man had sold it there for five minutes before the officers arrived. Mr. Root went with the police in search of the man he bought it from, but the fellow had not been found at a late hour last night. The officers think they know who the burglar was and expect to catch him by morning. He is an old offender and was but recently released from jail, if their suspicions are correct.

A fellow who gave his name as John Raymond made a bold attempt to steal nine pairs of trousers from the Copper City Commercial company yesterday afternoon. The store was crowded with customers paying monthly bills and trading, so no particular attention was given to the man who stood near the side door, which is kept locked. Several clerks asked him what he wanted, but he motioned to the cashier's desk as though waiting to get his check, he walked the full length of the store and out the front door. He had a large overcoat on his arm and under it he had stored away nine pairs of trousers ranging in price from \$4.50 to \$7.50 a pair. Just outside the door one pair dropped and a young man who saw that he did not stop to pick it up, told the clerks and a hot chase began. Joe Walsh was the first to catch the thief and there was a lively spring up Commercial avenue and down the alley towards the stockade. The thief was at a Maud S. girl with Joe Walsh right behind at a Robbie P. clip which soon overhauled the man with the stolen goods. Chief Fagan saw the start and joined in the chase so that he was in at the finish, and lodged the captured man in jail. The articles stolen amounted in value to \$60.50 and John is likely to get a winter's board in out of the cold where folks are not stylish and he can wear his everyday breeches.

PUBLIC SCHOOL NOTES.

The sixth, seventh and eighth grades will unite their best talent in an entertainment to be given on Friday evening of this week in the High school room. A good programme is in preparation consisting of speaking, plays, tableaux, vocal and instrumental music and fancy drills. An admission fee of 25 cents will be charged to raise money with which to purchase needed supplementary books. The full programme will be published in a day or two.

The Teachers' Reading club met last Friday after school for the study of Festivals, one of the leading educators of our generation. The next meeting will be devoted to Horace Mann.

All feel a deep sympathy for Miss Sutherland whose friend and companion was buried last Sunday.

Mr. Kern visited the college and public schools of Deer Lodge last Friday and in the evening spoke to a large audience at the court house on the subject of temperance as now taught according to law in the public schools. The effect of narcotics and stimulants on the various organs was illustrated by scientific charts. The highest average in attendance and punctuality yet attained by the schools as a whole was gained during the past two weeks. The following is the proud record: Central, 98.50; Lincoln, 98.50; eighth grade, 98.50; Lincoln, 98.50; seventh grade, 98.50; first room, 98.75; average, 98.50.

Lincoln-Eighth room, 98.80; seventh room, 98.70 (banned room); sixth room, 98.50; fifth room, 98.45; fourth room, 98.25; third room, 98.00; second room, 98.00; first room, 98.75; average, 98.50.

Prescott-Fourth room, 98.25; third room, 98.25; second room, 98.61; first room, 98.38 (banned room); average, 98.50.

Carroll school-97.62. Grand average, 98.14.

The Central is entitled to fly the pennant, but there is not enough left flying from the Prescott staff to pay the cost of getting it down, so a new one must be made.

A 30-foot staff points heavenward from the great Lincoln tower with halyards complete ready for the elegant flag recently presented to that school by the F. O. B. of A. The 400 Lincolns are waving this week as though they think there is room for the pennant there also.

He Will Be Missed.

J. W. Kimball, for more than a year private secretary to Mr. Donahoe, vice president of the B. & P. railroad, has resigned to accept a lucrative position in Omaha.

Mr. Kimball is one of the most popular young men in Anaconda, and that he is about to leave causes general regret to all who have met him during his stay in the city. He is a very efficient and capable railroad office man, and is highly spoken of by Mr. Donahoe and his associates in office. His successor will be E. H. Bryant of Kansas City, who is expected to arrive to-day. Kimball will go to the coast for a short trip, returning and going to Omaha about January. He has the best wishes of many Montana friends for his success and prosperity.

The Tables Turned.

The charge of assault and battery preferred by Ameriko Seccom against William Murphy resulted very disastrously last night for the complaining witness.

Ameriko told his tale of woe to Justice Mahan. He told how William had hit him on the head, "all for no time at all." Then Murphy had several witnesses who said he had acted in self-defense, that Ameriko was the aggressor in the trouble, and was after Murphy with a crowbar when he got hit. Attorney Winston was present and after hearing the testimony he moved that the charge against Murphy be dismissed and the costs taxed to Seccom, who had the warrant issued, which was done by the court.

Columbia Hose company No. 2 is expecting at the dance to-night a crowd as big as that which turns out to see a fire.

Rev. Father Harrington returned recently from a trip to Ogden, which has three feet of snow. That's a cold climate down south.

George Mimmis of Spokane called on friends in Anaconda yesterday. Mr. Mimmis was formerly a banker in the Cour d'Alence, but is now in the government employ.

An old hunter came into town yesterday and left a sack containing the skin of a 4-month-old Rocky Mountain sheep. He left it in one of the stores and no one in particular seemed to own it, but it is surmised that a new specimen will soon be added to a private museum in Anaconda.

John Maguire was in the city yesterday making arrangements for a theater train to Butte every night next week during the engagement of the Tavery Opera company at Maguire's opera house. The visit of this company gives a rare opportunity to hear grand opera in English and crowded houses are expected nightly.

A fine musical and literary entertainment will be given this evening at the Auditorium beginning at 8 o'clock, under the auspices of the Presbyterian choir. The object is to raise money for Christmas festivities for the Sabbath school children, and a large attendance is expected.

Maj. J. E. Dawson, of the Great Northern railroad, was in this city yesterday showing the sights of Anaconda to three visiting railroad men, Messrs. William Hopkins, general freight agent; C. B. Cutts, general passenger and ticket agent; and W. B. Benn, general agent, for the Minneapolis & St. Louis road.

He Made a Mistake.

John E. McLavin was sent to Deer Lodge yesterday, for trying to obtain money under false pretenses. He was sentenced to 45 days and to pay a fine of \$50. McLavin drew a check for \$15 and signed the name of D. D. Troby, then endorsing it with his own. He failed to spell Troby's name correctly and when he tried to pass the check in a saloon the bartender noticed the fault. Assistant Chief White was notified and made the arrest.

STRONG FOR BIMETALLISM.

Two Able Speeches at a Banquet of Denver Manufacturers.

DENVER, Dec. 11.—Two notable speeches on bimetalism were delivered at the banquet of the Denver Manufacturers' exchange to-night. David Holmes, of Berkeley, England, chairman of the parliamentary committee of the Trades Union Congress of the United Kingdom, representing 1,300,000 wage earners, speaking the toast, "Bimetalism and Wage Earners," said: "Thinking men account for the present trade depression by the appreciation of gold and the demonetization of silver in 1873 and since. If silver is restored to its former position it will revive trade and commerce the world over. Public opinion in England has recently grown rapidly on the subject and textile workers and others are cooperating with the Bimetallic league. The recent experiment of the British government with the financial and currency question in India is a flat failure and the Indian government is at its wits' ends to raise the necessary revenue. Bimetalism will be an important factor at the next British general election in 1895, and there will be a test on the question in Lancashire and other constituencies for parliamentary candidates."

Hon. Wharton Barker, of Philadelphia, speaking on "Bimetalism and Manufacturers," said: "The professors of political science in Great Britain, men in the front rank in Europe and America, favor bimetalism. The opposition comes from the money lenders. The demonetization of silver has contracted the world's money almost one-half and appreciated gold to the great advantage of the creditor class and the damage and ruin of the debtor class. The proposed plan of bank currency set forth in President Cleveland's message should be opposed by every citizen who has the welfare of the people at heart. Bimetalism must be restored by the independent action of America, and can be restored whenever the people are determined to have financial as well as industrial independence; to abandon British gold monometallism as they have done British free trade."

He suggested that America admit silver from American mines to coinage upon payment of the seigniorage absorbing three-fourths of the difference between the London price and the trade value, and that foreign silver be admitted for coinage at seigniorage absorbing all the difference between London price and the coinage value. "The road to American prosperity," he said, "is bi-metalism and protection. The true protective system will protect American labor, extend American commerce and at the same time preclude trusts, combinations and monopolies."

The Minneapolis Murder.

MINNEAPOLIS, Dec. 11.—The grand jury put in the day hearing the evidence in the King murder case. Mayor Easta related the story at length to the jurors. Later in the afternoon the sheriff appeared with Alvin Karpis, who repeated to the jury the confession as to his brother's schemes which he had given to the officers.

Attached a Corpse for Debt.

CHATTANOOGA, Dec. 11.—Residents of Crescent City, Fla., are indignant over

the conduct of A. A. Calhoun, president of the Morrow hotel there. Five weeks ago Frank Bateman, aged 15, a consumptive from Galesburg, Ill., son of an ex-congressman, died. A brother-in-law, A. Arkell of Bloomington, Ill., was summoned by telegraph, but he did not bring enough money for personal expenses and asked Calhoun to await payment of the money due him until the body reached Galesburg. The landlord obtained an attachment against the corpse. A Toronto newspaper man paid the bill to end the trouble.

Bailed a Depot.

BREMLAND, O., Dec. 11.—Robbers entered the railroad station at Woodfield, O., and, after knocking the agent insensible, they securely bound him and ransomed the station for express goods, railroad tickets and money.
